HibY_unit2_ex3 HOME Page

1. Display All Records (Old Web App)
2. Display a Single Record (Old Web App)
3. Test selectOne() Method
4. Test Students DB (Procedural Web App)
5. Test Students DB (OOP Web App)

---

6. Run Web Service Testers (AJAX/JSON)
7. Display One Record (AJAX + innerHTML)
8. Display All Records (AJAX + innerHTML)

Testers:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_Records_API_Tester.html

HibY Records API Tester (GET + POST)

Test GET Request (List Records)

Table Name: hiby_students Send GET Request

Test POST Request (Add Record)

Enter JSON to insert a new student:

```
{
  "action": "addRecord",
  "firstName": "Yacob",
  "lastName": "Hiben",
  "email": "yacob.hiben@example.com",
  "major": "CP"
}
```

Send POST Request

JSON Response:

Get tester:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_Records_API_Tester.html

Send POST Request

JSON Response:

GET Response:

```
[
  {
    "studentID": "1",
    "firstName": "Alex",
    "lastName": "Rivera",
    "email": "alex.rivera@example.com",
    "major": "Computer Science"
  },
  {
    "studentID": "2",
    "firstName": "Jordan",
    "lastName": "Lee",
    "email": "jordan.lee@example.com",
    "major": "Information Systems"
  },
  {
    "studentID": "3",
    "firstName": "Taylor",
    "lastName": "Nguyen",
    "email": "taylor.nguyen@example.com",
    "major": "Data Science"
  }
]
```

Post tester:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_Records_API_Tester.html

Table Name: hiby_students Send GET Request

Test POST Request (Add Record)

Enter JSON to insert a new student:

```
{
  "action": "addRecord",
  "firstName": "Yacob",
  "lastName": "Hiben",
  "email": "yacob.hiben@example.com",
  "major": "CP"
}
```

Send POST Request

JSON Response:

```
POST Response:

{
  "success": true,
  "insertedID": 5
}
```

Display one - before:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_DisplayOne_AJAJ.html

Display One Student (AJAX + JSON)

Enter Student ID: 1 Show Record

Result:

Display one - after:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_DisplayOne_AJAJ.html

Display One Student (AJAX + JSON)

Enter Student ID: 1 Show Record

Result:

```
{
  "studentID": 1,
  "firstName": "Alex",
  "lastName": "Rivera",
  "email": "alex.rivera@example.com",
  "major": "Computer Science"
}
```

Display all – before:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_DisplayAll_AJAJ.html

Display All Students (AJAX + JSON)

Load All Records

JSON Output:

Display all – after:

localhost:8000/CIS266/Students/HibY_Unit2_Ex3/hiby_unit2_ex3/ServiceClient/HibY_DisplayAll_AJAJ.html

Display All Students (AJAX + JSON)

Load All Records

JSON Output:

```
[
  {
    "studentID": "1",
    "firstName": "Alex",
    "lastName": "Rivera",
    "email": "alex.rivera@example.com",
    "major": "Computer Science"
  },
  {
